

TELSA Donates 1251 Bicycles in 2010

TELSA Donates 1251 Bicycles Exceeding the Target of 1000

Our FREE bicycles project for rural high students has elicited enthusiastic response from head masters of 86 Zilla Parishad High Schools from 21 out of the 22 districts of Andhra Pradesh. The total number of students recommended by these schools approached 1800. Against the 1000 free bicycles originally planned, we have approved 1247 and decided to give between 10–20 bicycles per school for all the schools that applied. This necessitated a change in our original plan to limit the number of schools to 50 at 20 bicycles each.

In addition we have also agreed to bear 50% of the cost of 40 hand-pedaled tricycles for disabled students in 40 villages in Khammam District being distributed by Chirag, an organization specializing in helping the handicapped.

Bank drafts for the cost of approved bicycles at 76 schools have been mailed to our resident –coordinator to be passed on to the head masters. They would be receiving them before the end of the month.

Distribution of bicycles to the students is expected to be completed on or about Gandhi Jayanti, the 2nd of October, 2010. The total cost of the project has come to 33 lakh rupees and TELSAs is deeply grateful to the donors and participants in our various walkathons and other fundraising activities for making this ambitious project a reality.
